INTRODUCTION

This bibliography has been prepared by the Petroleum Exploration Branch of the Bureau of Mineral Resources, with the assistance of the Geological Survey of Western Australia.

The references, which have been divided into three groups, include all known unpublished and published material up to 28th February, 1970. The unpublished report section includes reports of the B.M.R. Record series, together with those submitted by companies under the Petroleum Search Subsidy Acts. The latter are available for inspection at the Bureau of Mineral Resources, Canberra, and the Geological Survey of Western Australia, Perth. In this bibliography the company reports are listed under the names of the operating companies rather than under those of individual authors. References listed as confidential company reports are available only from, and at the discretion of, the individual companies concerned.
PUBLISHED REPORTS.

BROWN, H.Y.L., 1908—Government Geologist's reports on recent mineral discoveries. Further record of Northern Territory boring

ETHERIDGE, R., Jr., 1907- Preliminary report on other forms forwarded to me by the Govt. Geologist of South Australia. S. Aust. Parl. Pap. No. 55.
